LAND OWNERSHIP INVENTORY

FOREWORD

The West Isles Feasibility Study was initiated by the federal Minister of the Environment responsible for Parks Canada and the New Brunswick Minister of Tourism in November, 1983. The purpose of the study is to assess the feasibility of establishing a national marine park in the West Isles area of the Bay of Fundy.

The West Isles Feasibility Study is being conducted in three phases. Phase I is an assessment of the technical feasibility of establishing a national marine park in the West Isles area, from the perspective of Parks Canada and Tourism New Brunswick. If Ministers decide to proceed with the study, Phase II would involve extensive public consultation to provide the local public with the opportunity to become directly involved in the process to decide whether or not the West Isles proposal is feasible. The purpose of Phase III would be to analyse the results of the two preceding phases, and to prepare a final report based on the findings, with recommendations for a future course of action.

In the process of completing Phase I, nine individual studies were conducted to investigate specific aspects of the feasibility assessment, all of which are summarized in the Phase I report. These nine studies include the following:

1. Recommended Resource Management Guidelines
2. Institutional and Administrative Arrangements
3. Optional Visitor Use Concepts
4. Transportation Analysis
5. Tourism Development Plan
6. Socio-Economic Impact Study
7. Historical/Archaeological Concerns and Opportunities
8. Land Ownership Inventory
9. Analysis and Summary of Public Comments

Copies of the above reports are available upon request from the following addresses:

IV Property Listings	4

I PURPOSE OF THIS DOCUMENT

This document is an inventory of properties made during the course of conducting the West Isles Feasibility Study. Listings in the inventory are based upon public information obtained from the Land Registration and Information System (L.R.I.S.) and other records, such as property values, as of March 1984.

The information has been used to identify the pattern^x of public and private land use in the West Isles area. This enabled the study team to refine general concepts for visitor use.

This list was not prepared for purposes of land acquisition.

II ISLAND PROPERTIES

The properties of interest for any marine park would be the archipelago of islands to the east of Deer Island. These uninhabited islands provide a variety of opportunities to experience the marine environment both above and below the water.

The island properties of prime interest in the visitor use options are as follows:

<u>Island</u>	<u>Assessed Value</u>	<u>Size (Acres)</u>	<u>Cost Per Acre</u>
White Island	12,100	20	605
Hospital Island	- 2,500.	3.70 6A	1541.66? 416.66

Spruce Island	?	?	?
McMaster Island	241,500	388.0	622.42

III ABBREVIATIONS/SYMBOLS

The following abbreviations and symbols are used in the inventory:

- a) 125814 - Land Registration and Information Service property number which identifies properties on the maps indicated.
- b) 04K-A2 - Consult the map which is underlined for the outlay of the various properties. The other maps are listed only as reference.
- c) *Foreign ownership
- d) A - Acres
- e) H - Hectres
- f) M - Meters
- g) 1253814? - An LRIS number followed by a question mark indicates that the property may be considered as part of the area of interest. Properties which are close to the area of interest may be included depending upon the accuracy of the imposed boundaries.
- h) ?? - Two question marks indicate that there is uncertainty as to the ownership of the property. The owner which is listed in this case is not an owner perse but a contact person. For this reason there is no tax code and consequently no assessed value or taxes paid.
